

DBX SOLUTIONS LLC

IT Staffing | Cloud | Cybersecurity | Federal & Enterprise Solutions

CAPABILITY STATEMENT

UEI: WFWLY2K23BN3

CAGE: 12JT5

SAM.gov Registered

MSA: Deloitte Consulting LLP

COMPANY OVERVIEW

DBX Solutions LLC is a Virginia-based IT staffing and technology consultancy specializing in sourcing and deploying high-impact technical talent for federal agencies, DoD programs, and enterprise consulting environments. We maintain an active Master Subcontractor Agreement with Deloitte Consulting LLP (Contract DC-97064), positioning DBX as a vetted, compliant, and immediately deployable staffing partner within Deloitte's Government & Public Services practice.

DBX currently supports two active placements on Deloitte-aligned engagements, including a Senior Developer role supporting the NM CSES M&O program and a Developer role within the Deloitte GPS practice (PSA: DC-97064). Our founder brings over four years of hands-on federal IT and cybersecurity experience, including an active TS/SCI clearance, deep STIG/RMF/NIST expertise, and hands-on AWS cloud architecture experience — enabling DBX to evaluate, qualify, and place technical talent with a level of rigor that generalist staffing firms cannot replicate.

CORE COMPETENCIES

IT Staffing & Talent Acquisition	Cloud & Infrastructure	Cybersecurity & Compliance	Software Engineering
Precision sourcing of developers, cloud architects, cybersecurity engineers, and systems integrators for enterprise and federal environments. Technical screening led by a practitioner — not a recruiter.	AWS, Azure, and hybrid cloud modernization, migration architecture, and security hardening. Hands-on AWS architecture experience across compute, networking, and security services, validated through applied labs and real environment builds.	RMF, STIG, NIST SP 800-53, FISMA, and CMMC Level 2 readiness support. Active experience navigating C3PAO assessment processes and eMASS/ACAS/POA&M workflows.	Full-stack development, systems integration, database architecture, test case development, and application modernization across agile and DevSecOps delivery models.

WHY DBX

- **Deloitte-Embedded Partner:** Active MSA with Deloitte Consulting LLP (DC-97064) — DBX is already onboarded, vetted, and operating within Deloitte's GPS subcontractor ecosystem. No ramp time. No procurement friction.
- **Cleared Leadership:** Our founder holds an active TS/SCI clearance with CI poly eligibility, enabling DBX to source, evaluate, and prepare cleared IT professionals aligned to sensitive federal program requirements.
- **Practitioner-Led Vetting:** Every candidate DBX presents is evaluated by a practitioner with real federal IT and cybersecurity experience — not screened by keyword match. We know what RMF actually means in an operational environment.
- **CMMC Readiness Expertise:** DBX has active experience supporting CMMC Level 2 certification engagements, working alongside C3PAOs and coordinating technical readiness across control domains. This is a growing federal compliance need with limited specialized vendor supply.
- **Agile & Accountable:** As a founder-led, lean operation, DBX moves fast. Submittals within 48–72 hours. Direct communication. No layers.

ACTIVE ENGAGEMENTS

Client / Program	Role / Scope	Period	Status
Deloitte GPS / NM CSES M&O	Sr. Developer — systems design, database architecture, full-stack implementation	Oct 2025 – Present	Active
Deloitte GPS / Direct Placement	Developer — systems integration, test case development, program implementation	Jun 2026 – May 2027
